

Skin & Facial Advanced Course

SKIN AND ADVANCED FACIAL COURSE

THEORY AND HANDS-ON WORKSHOP

Obtain knowledge and learn about the esthetics industry in the privacy of your own home.

Our students tell us that they love the convenience of long distance learning because they:

- Do not have to be away from their salon or spa or miss a paycheque;
- Learn at their own pace and choose their own study hours; and
- Have access to a qualified instructor whenever they need academic assistance.

Skin & Facial Advanced Course

Conceptual Framework of our course

Medispa Skin Science is our theory course and comprises of 8 hours of tutorial instruction via Skype or webinar, assignments, online quizzes and a final exam. This is a great opportunity to find out whether or not esthetics is for you, by registering for our Skin Science Course you will learn everything you need to know to get started in the beauty industry.

The Medispa Advanced facial workshop comprises - online or in person

of 8 hours of instructional time on basic and advanced facials. Our advanced facial training includes thermo-modelage, freeze dried collagen,

and alginate detoxification facials. We train only with the latest, most technologically advanced skincare products that are backed with clinical studies to ensure optimal treatment results. Whether you're new to the beauty industry or just need some fine tuning in facial procedures, Medispa courses are perfect and tailored to your needs. (Esthetics or Skin Science is a pre-requisite)

If you wish to explore waxing we offer an 8 hour theory and waxing course. This course can be a refresher or an introduction for ones new to the industry.
